**Online
Course**

Citrix Certified Associate - App Delivery & Security (CCA-AppDS)

Course Modules

1. Getting Started

- Understand the Citrix ADC architecture and functionality.
- Identify Citrix ADC hardware and its components
- Determine the deployment and licensing options
- Determine how to setup and configure Citrix ADC

2. Basic Networking

- Determine which networking topology to use with Citrix ADC
- Determine which interfaces IP address types and VLANs
- Identify which Citrix ADC routing and traffic-handling mode
- Determine how to configure Access Control Lists

3. Citrix ADC Platforms

- Determine which hardware to use (Citrix ADC MPX, VPX, etc)
- Identify the pieces of the multi-tenant structure
- The specific function of the SDX when given various SDX interface

4. High Availability

- Understand how the high availability (HA) process works on Citrix ADC.
- Determine the appropriate Citrix ADC high availability configuration
- Method should be used to manage a Citrix ADC high availability
- Determine how to resolve common high availability issues

Citrix Certified Associate - App Delivery & Security (CCA-AppDS)

5. Load Balancing

- Identify the Citrix ADC load-balancing role of entities.
- When to use the different load-balancing and monitoring options
- Determine how to customize monitoring and service options
- Which method to use to protect tshoot a Citrix ADC load-balancg

6. SSL Offload

- Determine the process and requirement
- Determine how to create SSL virtual servers.
- Determine which SSL deployment
- Which Citrix ADC config settings can prevent a given SSL Exploit

7. Securing the Citrix ADC

- Determine how to utilize authentication, authorization, & auditg
- Determine how to configure authentication & authorization
- The components and steps required to secure a Citrix ADC config
- Determine how to utilize admin partitions in a given scenario

Citrix Certified Associate - App Delivery & Security (CCA-AppDS)

8. Troubleshooting

- Determine how to resolve Citrix ADC log issues
- How to monitor the Citrix ADC environment with Simple Network
- How to use AppFlow and Citrix App Delivery Management featr
- Determine how to use the Citrix App Delivery Management t
- Determine which Citrix ADC troubleshooting tool

9. Citrix Gateway

- Determine a given Citrix Gateway feature's role for app delivery.
- Determine how to configure Citrix Gateway
- Determine how to configure common deployments.

10. AppExpert

- Appropriate policy expression structure of AppExpert
- Determine how to configure pattern sets and data sets
- Determine how to utilize policy bind points
- Determine how to use AppExpert with Citrix Gateway

Citrix Certified Associate - App Delivery & Security (CCA-AppDS)

11. Authentication and Authorization

- Determine the steps in Authentication process to establish identity.
- Determine the steps in Authorization process
- Determine how to customize multi-factor authentication
- Determine how to deploy Authentication & Authorization policies.
- Determine how to configure nFactor
- How to configure SAML authentication based on a set of requirements

12. Managing Client Connections

- How to configure Citrix Gateway plug-in with Citrix Receiver
- Determine how to configure the access level
- Determine how to configure pre-authentication policies & profiles
- How to deploy Citrix Gateway to allow user connections
- Determine how to configure endpoint analysis
- Determine when to use the Always-ON feature for a VPN solution.

Citrix Certified Associate - App Delivery & Security (CCA-AppDS)

For Enquiry: +91 8680961847

13. Integration for Citrix Virtual Apps and Desktop Solutions

- To integrate Citrix Gateway with Citrix Virtual Apps and Desktops.
- Determine how to integrate with StoreFront.
- Determine how to enable Clientless Access and Receiver
- Determine how to configure Smart Control
- Determine how to configure Smart Access

14. Customizing Citrix Gateway

- Determine how to configure Citrix Gateway applications
- Determine how to configure RDP Proxy
- Determine how to configure portal themes
