

# Google Cloud Certified Professional Cloud Developer

## Online Course

- ✓ Ignite Your Potential
- ✓ Master New Skills
- ✓ Explore New Horizons

## Course Modules

### 1. Highly scalable, available, & reliable cloud-native apps

- Designing high-performing applications and APIs
- Designing secure applications
- Managing application data

### 2. Building and testing applications

- Setting up your local development environment
- Building CI Integration
- Integration, Unit, Performance, Load Testing

### 3. Deploying Applications

- Adopting appropriate feature rollout strategies
- Deploying applications to a serverless computing environment
- Deploying apps & services to Google Kubernetes Engine (GKE)

### 4. Integrating Google Cloud services

- Integrating an application with data and storage services
- Integrating an application with compute services
- Integrating Cloud APIs with applications

### 5. Managing deployed applications

- Managing cloud compute services
- Troubleshooting applications

**LEARN  
REMOTELY!!**

The efficiency of online learning in terms of time management, flexibility, and the ability to access resources anytime, anywhere can be compelling.
