

HPE Compute Solutions

Online Course

ZETLAN TECHNOLOGIES
www.zetlantech.com

Course Modules

1. Introducing the HPE compute product portfolio

- o Explain and position the HPE compute product portfolio
- o HPE Synergy
- o Advanced HPE ProLiant configurations
- o HPE Superdome Flex and Superdome Flex 280
- o HPE SimpliVity
- o HPE Apollo 2x00 and 4x00
- o Match HPE compute products with workloads

2. Configuring an HPE Synergy solution

- o Describe HPE Synergy components
- o Explain advanced Virtual Connect technologies
- o Explain the HPE Synergy design process
- o Configure HPE Synergy components
- o Describe the PowerShell Library for HPE OneView and API access

3. Working with HPE OneView server profiles

- o Explain server profile template and server profile concepts.
- o Work with server profile templates and server profiles.
- o Explain multi-pathing and downlink aggregation concepts.
- o Explain HPE OneView features for HPE ProLiant servers.

HPE Compute Solutions

4.Managing storage for HPE compute solutions

- o Describe the basics of the HPE Primera array
- o Explain storage management using HPE OneView

5.Managing HPE compute products

- o Describe HPE management solutions including:
- o iLO 5 management processor
- o HPE OneView for VMware vCenter Server
- o HPE OneView for Microsoft System Center
- o HPE OneView Global Dashboard
- o HPE iLO Amplifier Pack
- o HPE InfoSight
- o Prepare HPE Synergy for workload deployment

Zetlan Technologies

6.Working with virtualization workloads

- o Describe virtualization technologies
- o Describe vSAN setup for ROBO and vVols
- o Describe the update process using Lifecycle Manager
