

HPE OneView

Online Course

ZETLAN TECHNOLOGIES
www.zetlantech.com

Course Modules

1.HPE OneView Installation and Initial Setup

- o Compare HPE OneView implementation and access methods
- o Demonstrate the HPE OneView appliance installation and config
- o Explain the HPE OneView first access and initial configuration steps

2.Managing HPE Servers Using HPE OneView

- o Identify the available server management options in HPE OneView
- o Add standalone servers to HPE OneView
- o Describe the concept of server profiles and templates, and:
 - ☒ Create a server profile template for a rack system
 - ☒ Perform storage configuration
 - ☒ Explain Boot, BIOS, iLO, and Advanced settings
 - ☒ Manage server profiles

3.Managing Storage Using HPE OneView

- o Summarize the available storage mngmt features in HPE OneView
- o Identify the supported components in HPE OneView
- o Describe the process of mngng strg componts with HPE OneView
 - ☒ Adding supported storage components
 - ☒ Adding SAN managers
 - ☒ Managing volumes

4.HPE OneView Ecosystem

- o Describe the HPE Compute management portfolio
- o Compare HPE OneView implementation and access methods
- o Describe HPE OneView integration points
- o Diffete and explain licensing options for different management
- o Explain automation methods

5.Configuring HPE Synergy Using HPE OneView

- o Describe the HPE OneView for Synergy configuration process
- o Summarize the HPE OneView high-level configuration process
- o Diff and explain HPE Virtual Connect & other interconnect technlhu
- o Config HPE Synergy networkng, usg HPE OneView, and be able to:
 - ☒ Enable virtual ID pools and IP subnets
 - ☒ Create networks and network sets
 - ☒ Create logical interconnect groups
 - ☒ Create enclosure groups
 - ☒ Create logical enclosures
 - ☒ Configure a Fabric Manager

HPE OneView

6.Storage and profile management for HPE Synergy

- o Discuss unique storage management features for HPE Synergy
- o Expln unique server profile featrs for HPE Synergy compute nodes

7.Managing Data Center Managmnt and Security in HPE OneView

- o Describe data center management options
- o Implement HPE OneView security concepts

8.HPE OneView Lifecycle Management and Troubleshooting

- o Perform an HPE OneView update
- o Perform firmware update using HPE OneView
- o Use support and troubleshooting tools
- o Discuss available reports
