

HCIP-Security

Online Course

ZETLAN TECHNOLOGIES
www.zetlantech.com

Course Modules

1. Overview of Cyber Security Certification

- Capability Models for Cyber Security Engineers
- Cyber Security Certification

2. Firewall High Reliability Technologies

- Overview of Firewall High Reliability Technologies
- Firewall Hot Standby
- Firewall Link High Reliability
- Hot Standby Version Upgrade and Troubleshooting

3. Firewall Traffic Management

- Firewall Bandwidth Management
- Firewall Quota Control Policies
- Example for Configuring Traffic Management

4. Firewall Virtual System

- Virtual System Overview
- Basic Concepts of Virtual Systems
- Communication Between Virtual Systems
- Virtual System Configuration

5.Firewall Intelligent Uplink Selection

- Overview of Intelligent Uplink Selection
- Principles of Intelligent Uplink Selection
- Configuration of Intelligent Uplink Selection

6.IPsec VPN Technology and Application

- Basic Principles of IPsec VPN
- Application Scenarios of IPsec VPN
- High Reliability of IPsec VPN
- Troubleshooting of IPsec VPN

7.SSL VPN Technology and Application

- Overview of SSL VPN
- Service Functions of SSL VPN
- Examples for Configuring the SSL VPN
- SSL VPN Troubleshooting

8.Cyber Attacks and Defense

- Firewall Attack Defense Technologies
- Single-Packet Attack Defense
- DDoS Mitigation
- Anti-DDoS

9. Vulnerability Defense and Penetration Testing

- Vulnerability
- Vulnerability Defense
- Penetration Testing

10. Content Security Filtering Technologies

- Overview of Content Security Filtering Technologies
- Principles of Content Security Filtering Technologies
- Examples for Configuring Content Security Filtering Technologies

11. Emergency Response

- Emergency Response Overview
- Emergency Response Process
- Emergency Response Technologies and Cases

12. Network Access Control

- Overview of NAC
- User Identity Authentication
- Access Authentication
- NAC Configuration

13. Comprehensive Cases of Enterprise Network Security

- Overview of Enterprise Network Security Requirements
- Enterprise Network Security Solution Design and Deployment
- Enterprise Network Security Troubleshooting

**LEARN
REMOTELY!!**

The efficiency of online learning
in terms of time management,
flexibility, and the ability
to access resources anytime,
anywhere can be compelling.
