

HCIP-Storage V5.0

Online Course

ZETLAN TECHNOLOGIES
www.zetlantech.com

Course Modules

Storage Technologies and Applications

1. Flash Storage Technologies and Applications

- Product overview
- Software and hardware architecture
- Key technologies
- Value-added features
- Typical application scenarios

2. Data Protection Technologies and Applications

- Ocean Protect backup storage
- OceanStor BCManager
- Typical application scenarios

3. Scale-Out Storage Technologies and Applications

- Concepts and development trends of scale-out storage
- Software & hardware architectures of OceanStor Pacific products
- Key technologies of OceanStor Pacific products
- Key features of OceanStor Pacific products
- Application scenarios of OceanStor Pacific products

HCIP-Storage V5.0

Storage Product Deployment

4. Flash Storage Product Deployment

- Flash Storage Product Installation
- Flash Storage Service Configuration

5. Scale-Out Storage Product Deployment

- Hardware Installation Process
- Network Planning
- Software Installation Process
- Service Configuration

Storage System Performance Tuning

6. Storage System Performance Tuning

- Storage Performance Overview
- Storage Performance Evaluation
- Storage Performance Problems
- Storage Performance Tuning
- Storage Performance Test

HCIP-Storage V5.0

For Enquiry: +91 8680961847

Storage System O&M and Troubleshooting

7. Storage System O&M Management

- Storage System O&M Management Tools
- Routine Management

8. Storage System Troubleshooting

- Basics of Troubleshooting
- Troubleshooting Procedure
- Collecting Information and Reporting a Fault
- Replacing Parts
- Case Analysis
