

Course Modules

1. Enterprise Application Architectures and Cloud Technologies

- Background of Enterprise Cloud Migration
- Principles of Enterprise Application Architecture Design
- Cloud-based Architecture Design Case Study

2. Compute Service Planning

- Compute Service Overview
- Compute Service Planning
- IMS Planning
- AS Planning

3. Network Service Planning

- Network Service Overview
- Network Planning
- Network Access

4. Storage Service Planning

- Storage Service Overview
- Storage Service Planning
- Content Delivery Network
- Backup Solution Planning
- DR Solution Planning

5.Database Service Planning

- Introduction to Database Services
- Cloud Database Services
- Database Migration

6.Cloud Security Service Planning

- Cloud Security Design and Huawei Cloud Security System
- Workload Security
- Network Security
- Application Security
- Data Security
- Security Management

7.Cloud Native Technologies

- Cloud Native Concepts and Background
- Open Source Container Technologies
- Huawei Cloud Container Services
- Serverless Overview

8. Cloud Native Application Architecture

- Cloud Native Applications and Microservices
- Mainstream Frameworks of Cloud Native Applications
- Huawei Cloud Native Application Solutions

9. Huawei Cloud O&M Solution

- Cloud O&M Overview
- Open Source O&M Tools
- Huawei Cloud O&M Services

10. Huawei Cloud Innovations and Solutions

- Overview of Huawei Cloud Innovations and Solutions
- Huawei Cloud EI Solution
- Huawei Cloud IoT Solution
- Huawei Cloud Application and Data Solution

**LEARN
REMOTELY!!**

The efficiency of online learning
in terms of time management,
flexibility, and the ability
to access resources anytime,
anywhere can be compelling.
