Oracle Utitliities Meter Solution Coud Server 2022 Implementation Professional

Course Modules

1.Service Points, Devices and Measuring Components

- •Key concpts Service Points, Devices & Measuring Components
- •Configure Service Points, Devices & Measuring Components

2.Measurements

- •Implement intial measurements, final measurements
- •Measurement Reprocessing functnlty & Substractive Interval
- •Implement Best practices for measurement retention

3.Map Interval Measurements To Time-of-Use Periods

- •Key concepts of Time-of-Use (TOU) & how it applies to final
- •Configure work calendars
- •Generate TOU map data and check for correctness

4.VEE: Validation, Estimation and Editing

- •Explain VEE rules and exceptions
- •Configure VEE rules and exceptions, including the VEE rules
- •Configure Advanced Estimations

Oracle Utitliities Meter Solution Coud Server 2022 Implementation Professional

5.Usage Subscriptions

- Explain usage subscriptions
- Design and set up the admin data required to effectively config

6.Usage Calculation Groups / Rules and Usage Transactions

- Explain Usage Calculation Groups / Rules & Usage Transactions
- Configure base package usage calculation rules
- Configure dynamic rate determination
- Configure eligibility criteria for Usage Rules
- Configure the Usage Rule - Math usage rule
- Configure a Dynamic Option Type

7.Dynamic Aggregations

- Explain the main components of Dynamic Aggregations
- Set up and understand Dynamic Aggregations

8.Integrations

- Describe DataConnect
- Integrate with Customer Information Systems

Zetlan Technologies

Oracle Utitliities Meter Solution Coud Server 2022 Implementation Professional

9.Smart Grid Gateway (SGG) SaaS Overview, Adapters

- Describe Smart Grid Gateway (SGG) SaaS
- Configure the Smart Grid Gateway (SGG) SaaS Architecture

10. Smart Grid Gateway (SGG) SaaS Payload Processing

- Describe Usage and Event Upload
- Explain the cloud service payload processing configuration

11. Device Events

- Configure Standard Event Names
- Config Device Events to support filtering of momentary outage

12. Smart Grid Gateway (SGG) SaaS Command Processing

- Configure Head-End Systems
- Describe the commands generally supported by SGG adapters
- Set up and configure commands
